<u>Testing</u>

1. All buttons not working on admin screen on ADMIN SCREEN

- a. Transaction detail not displaying information. Information is completely missing on transaction detail page
- b. Voice activation gives error and not working on admin side
- c. Please change that I open the lot on the "<u>Bid Close</u>" button as we do for Live Webcast. Admin select "Bid Close" Lot Close. The description change from <u>"Bid Close</u>" to <u>"Bid Open"</u>. Administrator can ALSO select "<u>Bid Open</u>" button to reopen lot and then lot reopen. Can there for EITHER click on "<u>OPEN LOT</u>" or Click on description changed button "*BID OPEN*"
- d. The photo screen should change to 'CHAT" as we have for Live Webcast Auctions. Create button next to View Photo: CHAT. When Chat select the photo screen go blank and can see chat with users

2. <u>The increment popup to capture new increment not correct and not aigned like timed and Live</u> <u>Webcast ON ADMIN SCREEN</u>

3. View Catalogue ON ADMIN SCREEN SELECTION

If only one photo is loaded, then photo must automatically show in next view, same as Timed and Live Webcast

4. <u>Auction listing on user side not aligned – USER SCREEN FIX</u> Buttons on user side not aligned and ALSO not the same as at bottom of page Fix the BUTTONS FIST AS SETOUT IN NOTE 15 below before aligning

5. Seller name missing below specie – USER SCREEN FIXES

Seller name should display below SPECIES

Type : SELLER NAME: and then seller name of lot should display below African Wildcat

6. <u>Going once and going twice should be display where the "Increase" button is like we have for Live</u> <u>Webcast Auctions</u>

Create the same layout and description as we have for Live Webcast Auctions Block should be created below LOT 001 and replace "Increase" button The block in red should then ALSO display Going Once, Going Twice and Sold

7. Buttons below photo must change to the following:

- Remove HIDE PHOTO YES OR NOW, no longer require this functionality
- Button one: "More Photos" This display all photos loaded for the specific lot or sublots
- Button two: <u>"Video Clip"</u> This play the video clip loaded
- Button Three: <u>"Tree"</u> This display the Tree capture for lot, if loaded
- Button Four: "CHAT" This change the phot to white screen and allow the user to type a message to the administrator

- 8. Align user screen to Live Webcast Auctions for the following:
 - In Quick Bid GREEN BAR " QUICK BID "we must add
 - Below R1550, left of Quick Bid in white font "<u>BIDDING INCREMENT</u>" (same as Live webcast and Timed)
 - Below Next Bid R4600, right of Quick Bid in white font "<u>YOUR NEXT BID</u>" (Same as Live Webcast and Timed)

9. Align user screen to Live Webcast Auctions for the following:

- In <u>"BIDDING DETAILS ON LOT</u>" GREEN BAR we must add as we have for Live Webcast and Timed Auction
- To the right of the description as above : "PER UNIT or PER LOT in Brackets in White Font

 ^(a) : Welcome to Wildlife Auctions : x

10. Buttons NOT WORKING on User Screen

- Voice Activation on user screen NOT WORKING
- View Transaction Details not displaying lot and seller information. Same document and info as for Timed Auction and Live Webcast Auctions
- Your Basket not working. Not displaying the lost the user has been successful in as we have in Timed Auctions and Live Webcast Auctions. Currently BLANK, no lots

13. Catalogue export for Auction detail page

Export Catalogue functionality to be aligned to Live Webcast and Timed Auctions. Printing incorrect catalogue same as in 12 above

14. Logos not displaying correctly. Functionality MUST be 1900% the same as Timed and Live Webcast Auctions

15. Remove UNNECASSARY BUTTONS on Auction detail page

Remove the three buttons: EMAIL TRANSACTION, TRANSACTION SUMMARY and PRINT TRANSACTION
